

DMTF

Distributed Management Task Force

An Industry Standards Organization

www.dmtf.org

WHO

Led by innovative, industry-leading companies, DMTF has a global presence with members from 43 countries and local bodies in China and Japan.

WHAT

DMTF standards support diverse emerging and traditional IT infrastructures including cloud, virtualization, network, servers and storage. A complete list of standards is available at dmtf.org/standards.

WHY

Internationally recognized by ANSI and ISO, DMTF standards enable a more integrated and cost effective approach to management through interoperable solutions. The organization has the support, tools and infrastructure for efficient development and collaboration.

Join DMTF

Membership offers opportunity to impact the industry by participating in the process of defining standards and programs. DMTF maintains itself as the ideal forum for industry leading companies to come together in a collegial and established environment to collaborate on relevant interoperable management standards.

Join DMTF by visiting our website at dmtf.org/join.

Standards and Initiatives

- Cloud Auditing Data Federation (CADF)
- Cloud Infrastructure Management Interface (CIMI)
- Common Diagnostic Model (CDM)
- Common Information Model (CIM)
- Configuration Management Database Federation Standards (CMDBf)
- Desktop & Mobile Architecture for System Hardware (DASH)
- Network Management (NETMAN)
- Open Software Defined Data Center (OSDDC)
- Open Virtualization Format (OVF)
- Platform Management Components Intercommunication (PMCI)
- Scalable Platforms Management (Redfish)
- System Management Architecture for Server Hardware (SMASH)
- System Management BIOS (SMBIOS)
- Virtualization Management (VMAN)
- Web-Based Enterprise Management (WBEM)
- Web Services Management (WS-MAN)

The DMTF creates open manageability standards spanning diverse emerging and traditional IT infrastructures including cloud, virtualization, network, servers and storage. Member companies and alliance partners worldwide collaborate on standards to improve the interoperable management of information technologies. The organization is led by a diverse board of directors from Broadcom Limited; CA Technologies; Dell Inc.; Hewlett Packard Enterprise; Hitachi, Ltd.; HP Inc.; Intel Corporation; Lenovo; NetApp; Software AG; Vertiv; and VMware, Inc.
