News from the DMTF

Congratulations to our 2022 Star Award Recipients!

DMTF Attends Fall Shows

The organization is led by a diverse board of directors from Broadcom Inc.; Cisco; Dell Technologies; Hewlett Packard Enterprise; Intel Corporation; Lenovo; NetApp; and Lenovo. The board collaborates with the membership to define and create the industry standards needed to drive innovation and future growth.

The Redfish Forum is supported by an alliance of 50 companies dedicated to improving the interoperability of information technology computer systems.

DMTF Year in Review from the Desk of DMTF President Jeff Hilland

As DMTF's new fiscal year approaches, our membership renewal period is right around the corner. As always, please reach out to your local DMTF representative to discuss the benefits of membership.

Upcoming membership year runs April 1 to March 31.

About DMTF

DMTF is an international non-profit organization whose mission is to develop standards for the management of information technology systems. The DMTF defines and promotes industry standards that enable the management of IT infrastructure and the integration of software and hardware components. DMTF standards include Redfish, CIM, System Management BIOS (SMBIOS), and Platform Management Communications Infrastructure (PMCI). The organization is led by a diverse board of directors from Broadcom Inc.; Cisco; Dell Technologies; Hewlett Packard Enterprise; Intel Corporation; Lenovo; NetApp; and Lenovo. The board collaborates with the membership to define and create the industry standards needed to drive innovation and future growth.

The Redfish Forum is supported by an alliance of 50 companies dedicated to improving the interoperability of information technology computer systems.

DMTF Logo Usage Guidelines

The DMTF logo is displayed throughout the organization to represent the business, technical, and community aspects of the organization while maintaining a consistent brand identity. The DMTF logo is available in high resolution on the DMTF website. The logo files are available in JPEG (for low-resolution use), PNG (for PNG use), and SVG (for vector use).

We've recently updated the usage guidelines for the DMTF logo files and the most current logo usage guidelines and graphic standards are available on the DMTF website.

For help choosing the appropriate logo variation or for DMTF submissions, contact press@dmtf.org.
