

DMTF

An Industry Standards Organization

www.dmtf.org

WHO

Led by innovative, industry-leading companies, DMTF has a global presence with members from around the world.

WHAT

DMTF standards support diverse emerging and traditional IT infrastructures including cloud, virtualization, network, servers and storage. A complete list of standards is available at dmtf.org/standards.

WHY

Nationally and internationally recognized by ANSI and ISO, DMTF standards enable a more integrated and cost-effective approach to management through interoperable solutions.

HOW

Simultaneous development of Open Source and Open Standards is made possible by DMTF, which has the support, tools, and infrastructure for efficient development and collaboration.

Join DMTF

Membership offers opportunity to impact the industry by participating in the process of defining standards and programs. DMTF maintains itself as the ideal forum for industry leading companies to come together in a collegial and established environment to collaborate on relevant interoperable management standards.

Join DMTF by visiting our website at dmtf.org/join.

Latest Standards

CADF - Cloud Auditing Data Federation

CIMI - Cloud Infrastructure Management Interface

CIM - Common Information Model

DASH - Desktop & Mobile Architecture for System Hardware

MCTP - Management Component Transport Protocol

Including bindings for NVMe-MI™, I2C/SMBus and PCIe®

NC-SI - Network Controller Sideband Interface

OVF - Open Virtualization Format

PLDM - Platform Level Data Model

Including Firmware Update, Redfish Device Enablement (RDE)

Redfish®

Including Protocols, Schema, Host Interface, Profiles

SMASH - Systems Management Architecture for Server Hardware

SMBIOS - System Management BIOS

SPDM - Security Protocol and Data Model

For a complete list of standards and initiatives, visit www.dmtf.org/standards.

The DMTF creates open manageability standards spanning diverse emerging and traditional IT infrastructures including cloud, virtualization, network, servers and storage. Member companies and alliance partners worldwide collaborate on standards to improve the interoperable management of information technologies. The organization is led by a diverse board of directors from Broadcom Inc.; Cisco; Dell Technologies; Hewlett Packard Enterprise; Hitachi, Ltd.; HP Inc.; Intel Corporation; Lenovo; and NetApp.
