Led by innovative, industry-leading companies, DMTF has a global presence with members from around the world.

DMTF standards support diverse emerging and traditional IT infrastructures including cloud, virtualization, network, servers and storage. A complete list of standards is available at dmtf.org/standards.

Nationally and internationally recognized by ANSI and ISO, DMTF standards enable a more integrated and cost-effective approach to management through interoperable solutions.

Simultaneous development of Open Source and Open Standards is made possible by DMTF, which has the support, tools, and infrastructure for efficient development and collaboration.

Join DMTF
Membership offers opportunity to impact the industry by participating in the process of defining standards and programs. DMTF maintains itself as the ideal forum for industry leading companies to come together in a collegial and established environment to collaborate on relevant interoperable management standards.

Join DMTF by visiting our website at dmtf.org/join.

Latest Standards

**CADF** - Cloud Auditing Data Federation

**CIMI** - Cloud Infrastructure Management Interface

**CIM** - Common Information Model

**DASH** - Desktop & Mobile Architecture for System Hardware

**MCTP** - Management Component Transport Protocol
   Including bindings for NVMe-MI™, I2C/SMBus and PCIe®

**NC-SI** - Network Controller Sideband Interface

**OVF** - Open Virtualization Format

**PLDM** - Platform Level Data Model
   Including Firmware Update, Redfish Device Enablement (RDE)

**Redfish®**
   Including Protocols, Schema, Host Interface, Profiles

**SMASH** - Systems Management Architecture for Server Hardware

**SMBIOS** - System Management BIOS

**SPDM** - Security Protocol and Data Model

The DMTF creates open manageability standards spanning diverse emerging and traditional IT infrastructures including cloud, virtualization, network, servers and storage. Member companies and alliance partners worldwide collaborate on standards to improve the interoperable management of information technologies. The organization is led by a diverse board of directors from Broadcom Inc.; Cisco; Dell Technologies; Hewlett Packard Enterprise; Hitachi, Ltd.; HP Inc.; Intel Corporation; Lenovo; and NetApp.
