HDBaseT Product Certification Program Highlights

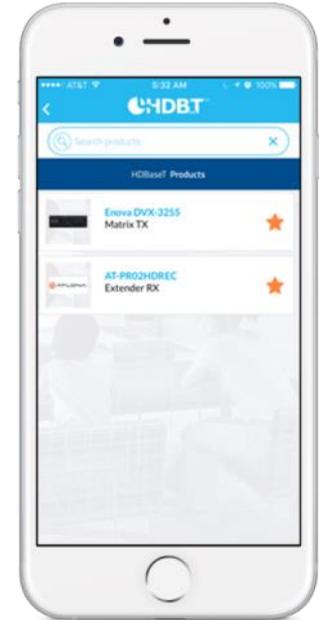

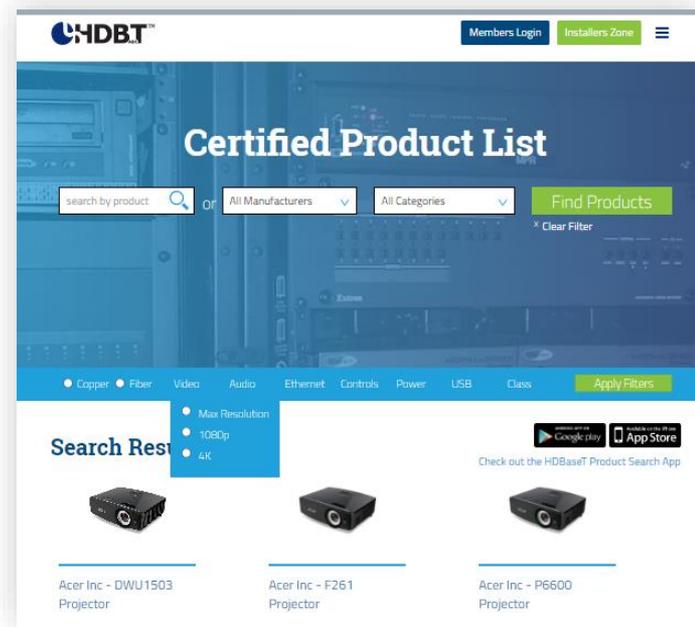

“The HDBaseT Product Certification Program provides members with a set standard for ensuring their products are compliant, interoperable and part of the established product ecosystem.”

Ariel Sobelman, President, HDBaseT Alliance

HDBaseT Certification Benefits for Members

Inclusion in the Certified Product List on the Alliance website and in the smartphone app

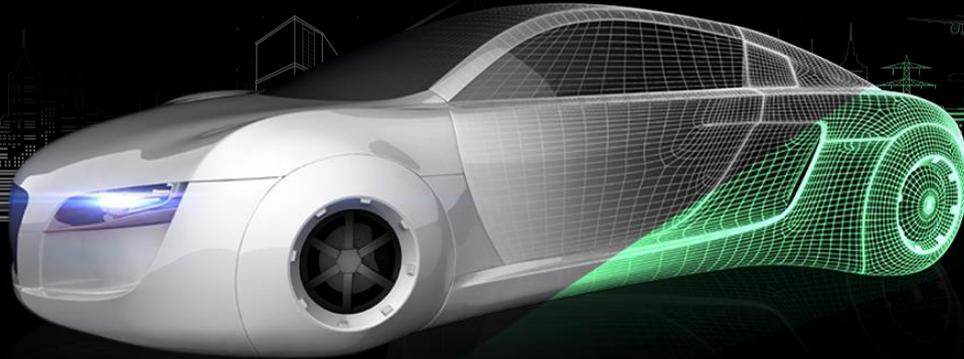

HDBaseT Automotive

The Best of All Worlds in One Solution

Valens' HDBaseT Automotive is the ultimate, feature-rich technology for in-vehicle connectivity, through the most, cost-effective and flexible infrastructure, for a superior end-user and system design experience

**High-Speed
Transmission**

**Lightweight
Infrastructure**

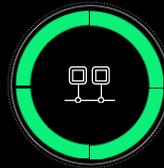

**Standard
Technology**

**Simple
Installation**

**Native
Networking**

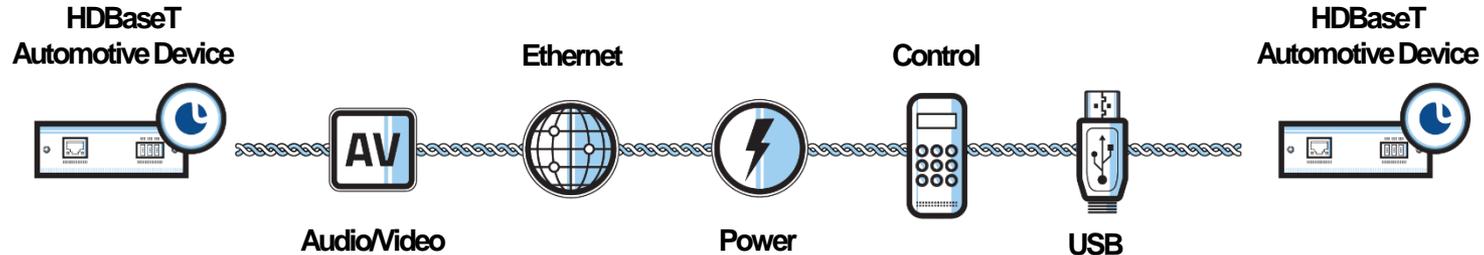

**Low Cost
Infrastructure**

HDBaseT Automotive: The Ultimate Highway for In-vehicle Connectivity

- Introduced in early 2016, to address today's need for in-vehicle connectivity
- Establishment of the HDBaseT Automotive Working Group to finalize the standard and promote it with OEMs, Tier-1s, silicon vendors and more
- **Very positive initial traction: more than 10 automotive players have already joined the Alliance, including Daimler and Delphi as Contributors**

15M/50FT UNSHIELDED TWISTED PAIR
HIGH-SPEED, FULL-DUPLEX AT NEAR-ZERO LATENCY

HDBaseT Automotive Working Group

- Established in 2015
- Goal:** Finalize HDBaseT Automotive standard
- Current members include:

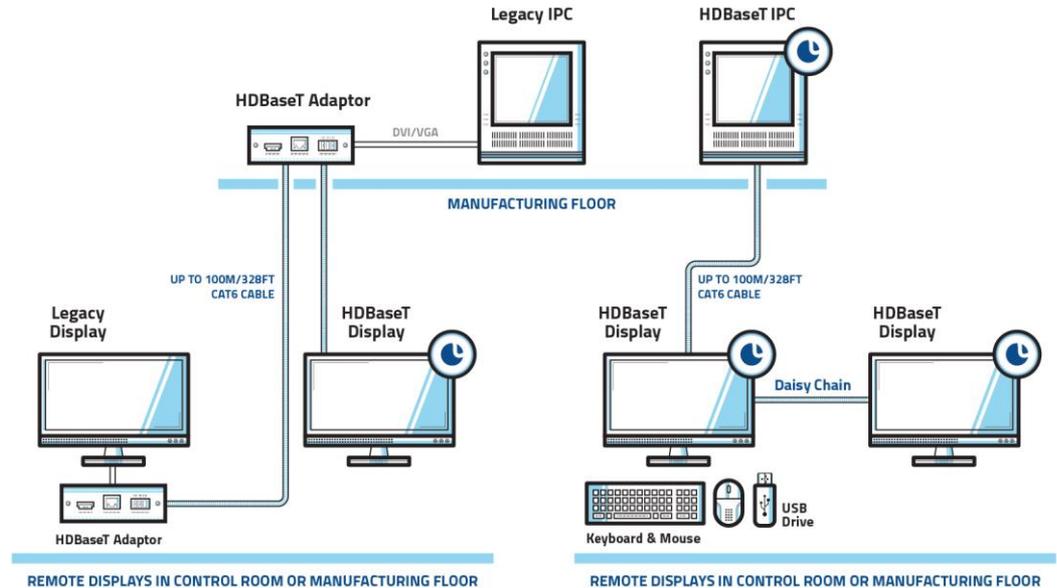

HDBaseT Industrial

HDBaseT Industrial: The Ultimate Solution for Industrial Computing Connectivity

- Addressing the connectivity needs of manufacturing plants
- Major players in Europe and APAC are members
- Promotes interoperability and ease of use to end-users
- Activities in major IPC shows, such as Embedded and Electronica

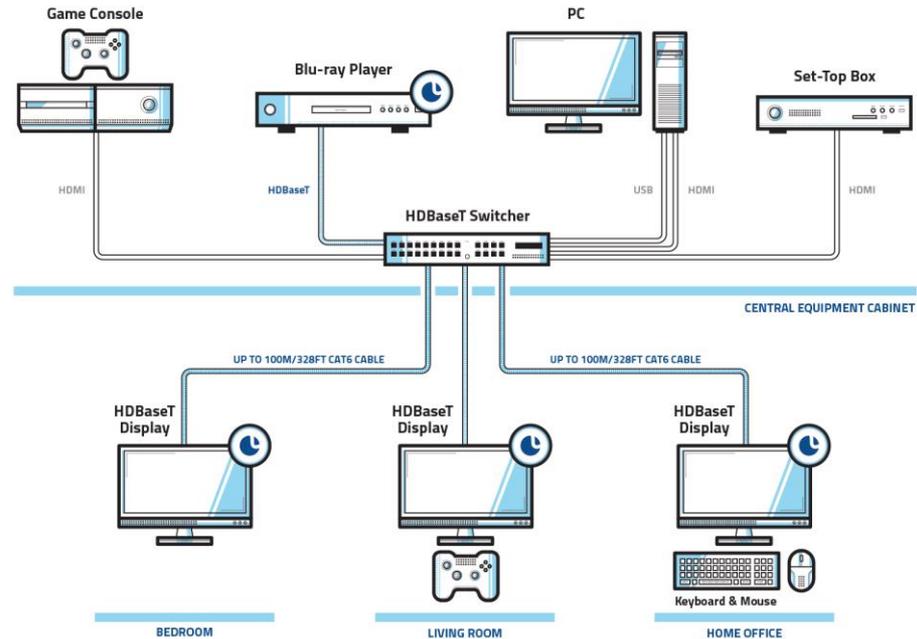

HDBaseT Consumer

HDBaseT Consumer: The Elegance of the One-cable Solution for Home Connectivity

- Elegance & performance in our connected homes
- Major consumer electronics brand are Alliance members: projectors, AV receivers, extenders and switches
- Promoting HDBaseT at major residential shows, such as CES, CEDIA, TechHomeX

DMTF & HDBaseT Collaborative Domain

Cyber Security Risks for HDBaseT

HDBaseT Security Needs

Threat Model

- Supply Chain Attacks (Fake parts installation)
- T-Packet tampering (modification, drop, injection) / eavesdropping

Desired Security Services

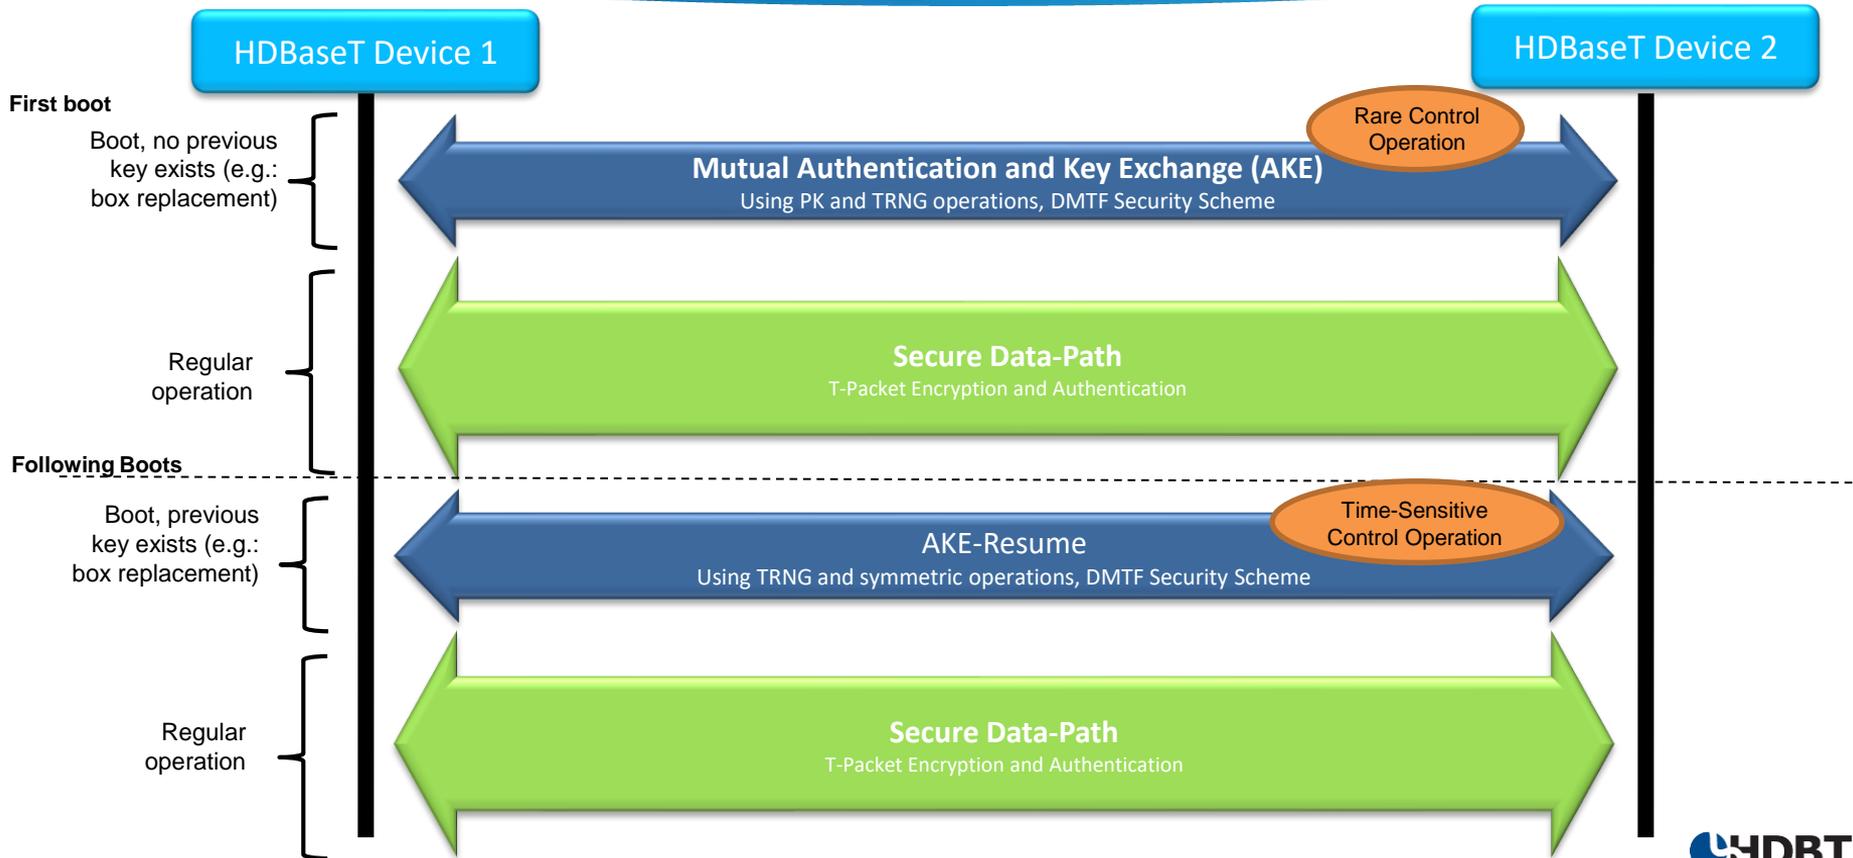

- Device Authentication
 - Towards peer-device and/or external controller
 - Includes device identity authentication and optional key-exchange protocols
 - Uses device certifications
- HDBaseT T-Packets Security (Encryption)
 - HDBaseT traffic end-to-end encryption & authentication
 - Secure end-to-end connections between HDBaseT devices

HDBaseT Security Services – Collaboration with DMTF

- About DMTF (from: <https://www.dmtf.org/about>):
 - *“The DMTF (formerly known as the Distributed Management Task Force) creates open manageability standards spanning diverse emerging and traditional IT infrastructures including cloud, virtualization, network, servers and storage. “*
- DMTF has formed a new Security Task Force within its Platform Management Components Intercommunication (PMCI) Working Group (from: <https://www.dmtf.org/content/get-involved-dmtfs-pmci-security-task-force>)
- The DMTF Security Scheme is based on USB Authentication Scheme, and is examined with high probability of adoption by PCI-SIG and MIPI Alliances
 - Some of the most important high-Bandwidth Native Interfaces carried over HDBaseT
- The HDBaseT Alliance becoming Alliance Partner with the DMTF, in the context of security, can allow for importing a wide-reviewed, stable, commonly adopted security solutions to the HDBaseT Network
