AlertIndication
(See Event Model)

SecurityIndication(E)
- IndicationIdentifier: string [Required, Override]
- AlertType: uint16 [Required, Override]
- MessageType: uint16 [Required]
- IndicationEndTime: datetime
- EventCount: uint16
- Effects: uint16[] [Required]
- MoreSpecificEffects: string[]
- Mechanisms: uint16[] [Required]
- MoreSpecificMechanisms: string[]
- Resources: uint16[] [Required]
- MoreSpecificResources: string[]

IPNetworkSecurityIndication(E)
- Protocol: uint16 [Required]
- IPVersionSupport: uint16 [Required]
- SourceAddress: string
- IPv4NumericSourceAddress: uint32
- SourcePrefixLength: uint8
- DestAddress: string
- IPv4NumericDestAddress: uint32
- DestPrefixLength: uint8
- SourcePort: uint32
- DestPort: uint32
- SourceMACAddress: string
- DestMACAddress: string

IPPacketFilterIndication(E)
- Direction: uint16 [Required]
- NamingConvention: uint16
- SourceHostName: string
- DestinationHostName: string
- DestinationServiceName: string
- TranslatedSourcePort: uint16
- TranslatedSourceIPv4NumericAddress: uint32
- TranslatedSourceAddress: string
- TranslatedDestPort: uint16
- TranslatedDestIPv4NumericAddress: uint32
- TranslatedDestAddress: string

Title: Security Event Version V2.43.0
